

MAY 1, 2018 & JUNE 13, 2018 UNDERSTANDING YOUR SOLAR POWER OPTIONS

Speakers from SC Solar Council, Savannah River National Laboratory, and Solarize SC are working with the City to help provide discussion and answers to citizens about using solar power at your home. Please attend this FREE seminar if you are considering converting to solar to learn:

• How much should it cost?	• How much will it benefit you?
• What incentives are available to you?	• What size system should you consider?
• What type of financing should you consider?	• What is your Return on Investment (ROI)?
• Is solar right for my home?	• Where can I get more information?

The event will be held on two dates, **choose one** & register at our website: www.northaugusta.net From homepage "Event Calendar"

Understanding Your Solar Energy Options
